

# pdfInspektor

Server Automated PDF Preflight

PDF HandShake UB+ includes pdfInspektor from callas software

**HELIOS**

## PDF is good, control is better

PDF HandShake includes pdfInspektor from callas software, a powerful solution for analyzing and preflighting PDF files to ensure that incoming and outgoing PDF files are production compatible.

**HELIOS PDF HandShake UB+** integrates pdfInspektor into "Create PDF" printer queues, HELIOS Script Server "watched folders", and WebShare web-based PDF preflight. pdfInspektor allows automated server-based PDF file checks.

**Server-based** PDF preflight with pdfInspektor is Acrobat 6/7/8 Professional preflight compatible. It checks PDF files according to PDF 1.2 - 1.7 and PDF/X specifications. Test profiles customized and approved in Acrobat can be exported and stored on the server. The fully automated check is done on the PDF HandShake server so no additional Acrobat workstation is required. Over 600 test characteristics can be defined and combined in preflight test profiles. 20 industry-standard profiles are included to allow a quick start. They can be customized to meet precise needs.

**Smart Ideas for Better Networking.**

**Flexible PDF Preflight Reports** are available as text, XML, and HTML files, or as an annotated PDF indicating areas with errors or warnings.

**pdfInspektor is compatible** with any PDF documents of the PDF 1.2 - 1.7 and PDF/X-3 specifications. Even the most complex PDF files are efficiently checked, including "Form XObjects". Compared to other solutions, pdfInspektor never modifies the original PDF files when checking them, which preserves job ticket and XMP meta data. Validates and creates PDF/X-1a, PDF/X-3, PDF/X-4, PDF/A-1a, PDF/A-1b.

**PDF standard corrections** can automatically be performed by PDF HandShake Print and "Create PDF Server" to fix problems such as hairline minimum size, preserve black, convert TrueType and CID fonts to Type 1, recognize and correctly convert RGB defined white, gray and black objects, and perform ICC-based color conversion for the printing process.

## Features & Benefits

### Ease of Use

- Easy to install, administer, use
- Remote PDF preflight administration from Mac, Windows, and UNIX

### Analyzing and preflighting PDF

- Automatic PDF preflight provides reliable PDF input and output control
- PDF preflight integrated into PDF HandShake "Create PDF" queues
- "Hot folder" based PDF preflight via optional HELIOS ImageServer
- Precise test characteristics specified in each test profile (> 600)
- Test report in ASCII, XML, or PDF
- Validates and creates PDF/X
- Web based PDF preflight via optional HELIOS WebShare Action Script

### Compatibility

- Acrobat 6/7/8 Professional compatible preflight profiles and engine
- PDF 1.2 - 1.7 and PDF/X
- "Form XObjects" PDF support
- Never modifies original PDF files, preserves job tickets and meta data

### Supported server platforms

- Solaris, Linux, Mac, Windows, AIX
